PRIMARY EXAMINER

1. The following is an examiner's statement of reasons for allowance: the amendment filed 11/14/2005 has overcome the prior art of record. The prior art of record fails to teach or fairly suggest capacitive plates form the input lead, the control lead, and the output lead of each SCC structure as called for in claim 1, each of the SCC structures includes a first capacitor and a second capacitor, the first and second capacitors being connected together in series as called for in claim 13, means for capacitively coupling a selected one of the plurality of data input leads to an intermediate node as called for in claim 20. Therefore, claims 1-13 and 15-21 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
